US 1782 filing – application granted

Salt Mobile SA announces, further to the filing of 1782 proceedings in the US last week, that its application and petition for an order to conduct discovery for use in foreign proceedings has been granted.

Salt is authorised to, and will immediately, serve subpoenas on Liberty Global Inc., Liberty Media Corporation, John C. Malone, and Michael Fries. Furthermore, Salt is authorized to use any evidence obtained in any additional proceedings arising from the same matters.

The 1782 proceedings were initiated to aid contemplated Swiss proceedings in which Salt will allege that the proposed transaction by which Liberty or its designated affiliate would acquire Sunrise Communications AG infringes on contractual rights established as part of its Swiss Open Fibre joint venture with Sunrise. Unanimous Sunrise Board approval for the deal and the irrevocable tender by Freenet of its 24.4% stake in Sunrise have already destroyed significant value for Salt and its shareholders.

We are pleased that the court ruled on our application swiftly, given the important and urgent nature of this case. We look forward to the receipt of information that will shed further light on Sunrise's unlawful actions in recent months.
