April Network Update 500 Mbit/s – a new normal

Over the course of the first four month of the year, Salt has brought up to speed almost 100 antenna sites, offering 4G+ technology and hence maximum download speeds of up to 500 Mbit/s in locations all over Switzerland such as Bischofszell, Marin (NE), Losone, Sainte-Croix and Sarnen.

The push initiated in major Swiss cities such as Zurich, Basel, Lugano, Geneva, Lausanne and Bern over summer last year has now been extended to important thoroughfares and more rural areas in general. At Salt, 4G+ benefits an ever increasing percentage share of the Swiss population now reaching 55%.

The green dots in the map above show the 96 antenna sites which have been upgraded or newly built in the course of this year's first four month and now offer 4G+ technology and a maximum download speed of up to 500 Mbit/s.

Press release

The latest expansion of 4G+ technology on Salt's mobile network is particular good news for heavy users of capacity-intensive over-the-top (OTT) applications such as FaceTime, Skype but also Snapchat, Periscope and certain functionalities of Instagram and Facebook. Downloading content without interruptions while on the go as well as viewing, sharing and streaming videos live is now possible where previously it was not.

Two thirds of the 96 sites now offering 4G+ technology were also equipped with low frequency bands, thereby allowing for a significant improvement of network coverage nearby.

Salt's attractive mobile products comprise innovative, simple to understand and affordable flat rate subscriptions such as Plus Swiss at CHF 59.- per month, Plus Europe at CHF 89.- as well as the company's Young and Senior offering: Plus Basic Young and Plus Basic Senior at CHF 25.- and Plus Swiss Young and Plus Swiss Senior at CHF 49.- per month.

About Salt: Salt is a Swiss telecommunications provider which owns and operates an extensive, high-quality mobile telecommunications network infrastructure. Thanks to its ultrafast broadband solution called Salt Fiber, Salt provides a unique triple play service, which for the first time in Switzerland takes full advantage of the optical fiber technology by means of symmetrical data transmission rates of up to 10 Gbit/s. Salt Fiber can be combined in a gainful way with Salt's powerful Plus flat rate subscriptions - a revolutionary portfolio which, thanks to its simplicity, has already convinced more than 95% of Salt's customer base.

Salt in figures: 1,223,000 postpaid customers (as of 31/12/2017), 88 Salt Stores and 4G coverage of 98% of Switzerland's population.
