Renens, 24.11.2021

### **Fastest Fixed Internet in Switzerland now even better Fiber Box X6 and state of the art Wi-Fi Box**

On November 24 2021, Salt opens new Wi-Fi 6 certified fiber optic box for its unique Salt Home FTTH (Fiber To The Home) product to all customers and introduces a state of the art Wi-Fi mesh (extender) solution – the Wi-Fi Box - to guarantee a seamless surfing experience throughout the entire home.

Back in March 2018, the operator was the first worldwide to launch a 10 Gbit/s Fiber solution. Thanks to the new “Fiber Box X6”, users are able to surf at multi-gigabit speeds over several devices via Wi-Fi. And this with a significantly reduced carbon footprint. After a successful soft launch period since April this year, all new Salt Home subscribers will benefit from the Fiber Box X6 as per today.

#### **Fiber Box X6: Wi-Fi 6 and eco-friendly design**

The Fiber Box X6 offers the latest Wi-Fi Standard, Wi-Fi 6. The new standard is perfectly suited to support the many connected objects that will emerge over the coming years. Thanks to Wi-Fi 6, customers benefit from highest speeds and a stable high-quality wireless-LAN connection.

The box design was completely revised and conceived to reduce its carbon footprint. The Fiber Box X6 comes with a reduced size and black colour casing and perfectly fits any living or other room designated for home entertainment. Recycled plastic and FSC (Forest Stewardship Council) certified packaging is now used and the power efficiency was improved. The product's carbon footprint over its life cycle was reduced by 21%, a value verified by Bureau Veritas as part of the Bureau Veritas Footprint Progress® certification awarded to eco-designed products. Its setup is extremely simple with a proven plug & play experience.

#### **Wi-Fi Box: Outstanding Wi-Fi experience**

In order to further enhance customer’s Wi-Fi experience the Wi-Fi Box, a new Wi-Fi mesh (extender) solution, is now available for all customers online and in Salt Stores. The box supports the Wi-Fi 6 standard and enables customers to benefit from an outstanding Wi-Fi coverage throughout their entire home.

*Pascal Grieder, CEO at Salt commented the launch: “At Salt, we are committed to constantly rethink and improve our products and services. The new Fiber Box X6 is keeping up to this promise; we are providing customers an eco-friendly product that includes a state-of-the-art router, the best Wi-Fi technology, at one of the most attractive prices in the market.”*
