PCtipp recommends Salt Home to all TV fans

PCtipp, a Swiss PC magazine which offers comprehensive support and information for PC, tablet and smartphone, compared the best combi-packages for internet, TV and fixed telephony in Switzerland and selected the Salt Home triple play solution as their recommendation for TV fans.

In its December 2021 edition, PCtipp selected Salt Home out of nine other Swiss providers as tip for TV fans in their combo package (internet, TV and fixed telephony) comparison. According to the test, Salt Home is one of the simplest and clearest triple-play offers. Salt Home especially convinced the jury with its ease of use, speed and great TV offering.

Fastest connection and best service at the best price

In January this year, Salt Home was ranked fastest fixed internet connection in Switzerland by nPerf, for the third year in a row. The PCtipp comparison further highlights the products remarkably attractive price. A tariff comparison published by dschungelkompass.ch earlier this year revealed that Salt Home offers the best price for Internet, TV and Mobile products in the Swiss market. While price is a product strength, service quality is no less so: in 2021, the Salt Home service hotline was ranked best in the country for the fourth consecutive year in the connect hotline test for broadband products.

Pascal Grieder, CEO at Salt commented the test results "We have made many product improvements since the product launch in 2018 and are glad to see our efforts further bearing fruit. The test results again confirm Salt Home truly offers customers outstanding value for money."
