

## Press release

Renens, 15.12.2021

### **Salt's mobile network ranked first in Switzerland in November 2021**

In November 2021, Salt's mobile network was ranked number one among its national competitors and 4<sup>th</sup> out of 71 tested operators on a global scale with a total of 41 885 points [by 5GMark](#), a renowned international mobile performance test platform.

Average download speed measured was of 56.9MB/s and average upload speed of 16.3MB/s. These levels allow customers to benefit from an excellent download experience and to stream high definition videos as well as perform video calls from anywhere, at any time on their mobile device.

This achievement is the result of the company's continuous investments in its mobile network across Switzerland. Over 2021, the company further modernized the existing 3G and 4G infrastructure and extended its 5G network. These efforts were also reflected in the 2021 connect mobile network test results, where Salt's mobile network achieved high performance levels in all test disciplines and improved its score for the fourth consecutive year in a row.

**Pascal Grieder**, CEO at Salt, commented: *"We are very proud of the world-class network and excellent value for money we are delivering to our customers. We will continue to invest into our infrastructure to further improve the quality of service for our customers."*
