Connect 2023: Salt Home Offers the Best Broadband in Switzerland

Salt has been named the top broadband provider in Switzerland by the recent Connect customer survey. Salt Home high-quality service and affordable offer outperforms its competitors.

Salt has committed to maintaining Salt Home's current price of CHF 39.95¹ until 2026.

Salt has the best broadband offer. This is the result of a recently published customer survey that Connect conducted with the *Fachinstitut für Technikthemen* among customers in Germany, Austria and Switzerland. Salt not only performs best in Switzerland, but also achieves the best result of all providers in the three countries. Salt ranked #1 in the four categories: Hardware and Software, Customer Service, Brand/Provider, Network and has the most satisfied customers. They particularly enjoy the best performance and service at the best price.

Salt Home has been offering Switzerland ultra-fast broadband for five years. It is now used by more than 200,000 customers. Salt Home provides customers with access to ultrafast internet with 10Gbit/s technology via optical fiber, an Apple TV 4K as a set-top box with access to over 260 channels on Salt TV, and a fixed telephony solution that includes unlimited calls to mobile and fixed networks in Switzerland and Liechtenstein. Salt's top-performing fixed broadband offer has won numerous awards, including coming out on top in the nPerf barometer for the last three years. Since its inception, Salt has maintained an unprecedented price from CHF 39.95¹ per month for Salt customers. Despite the inflationary environment, Salt commits to no price increase for another three years.
